

Dear Alanya Best Service Friends,

The summer reached us with all its sunshine, blue lively beaches and with good news regarding the normalization of our country after the hard and worrying days of the pandemic.

### **Covid-19, New Rules with a more normal life**

With the last month, Turkey increased the vaccination rate of the population and the amount of total vaccinated people in Turkey is as of today 49.974.344. This number includes those who had their first and second vaccines. For our region, Antalya this number is 1.700.610. When you consider the total population of Antalya region is 2.596.443, this is quite a promising number, which tells us that you may have a considerably safe holiday in Alanya. Even the Ministry of Health started as of today the third dose of vaccines for those who work in the health sector and those who are over 50.

As a part of these developments and decreasing numbers of Covid-19, Turkey decided to go in a normalization level a step more as of today, 01.07.2021. Here are the new changes:

1. As of today, there will be no more curfew. So, you will be able to go out without restrictions. Only, wearing a mask is still mandatory.
2. Restaurants, bars, cafes, etc. will be open according to their working licenses, however the music will stop at 24:00. People may enjoy where they are after 24:00 if it allowed on their working license, however without music. This we believe will be changes soon.
3. There will be no limitations for the restaurants, bars or cafes regarding how many people can be at the same time using inside or outside facilities.
4. Events such as concerts, festivals and youth camps can be organized by leaving a minimum of 4 square meters in open areas and 6 square meters in closed areas per person. Events will be allowed provided that the rules and principles specified in the Epidemic Management and Working Guide and the principles of cleaning, mask and distance are followed.
5. Businesses such as movie theaters, Turkish baths, sauna and massage parlors, and entertainment venues, which were previously suspended due to Covid-19 measures, will also be opened.
6. Passenger and seat capacity restrictions in all urban or intercity public transportation vehicles have been ended, standing passengers will be allowed and wearing masks will be mandatory. Citizens aged 65 and over, young people under the age of 18 and children will also be able to use public transport in the city without any time limit.
7. The 10.00-16.00 working hours applied in public institutions and organizations have ended and the normal working order has been returned. The starting and ending times of daily work for public institutions and organizations and the lunch rest period will be determined by the governors according to the characteristics of the regions and the service.

8. In weddings, the requirement of having a minimum of 6 square meters per person in closed places will continue, and the number of participants will not be limited.
9. Visitor planning will be made in the picnic and recreation areas with 4 people per square meter. There will be a distance of at least three meters between the tables in the picnic areas. Barbeque will be allowed.

At the entrance to eating places such as restaurants and cafes, the previously determined "Fever measurement, HES code inquiry, mask wearing" measures will continue. The distance between the tables will be 1.5 meters.

### **Our website**

Alanya Best Service is changing the website to a more contemporary look with more functions and the new website will have also more futures regarding the real-estate department, many projects and re-sale properties for sale. If you want to sell your property, buy a new property or swap your property with a new project you can always reach us. Of course, it takes time to have it completely finish and transfer the old website with all functions correctly.

Our new website will be on the existing address we have been using since we opened business. However, for a while the functions such as ordering transfer, cleaning, accounting functions will not be available. Therefore, we will be using for your such requests our substitute website. You can reach all functions, with the website face you know for many years at [www.alanyabestservice.dk](http://www.alanyabestservice.dk)

We hope this will not lead too much confusion to you our dear clients and when all transfer is finished to our new website, you'll reach all functions and more on [www.alanyabestservice.com](http://www.alanyabestservice.com)

### **Air Conditions Service**

As many of you were not able to come to Alanya long time and we believe many of you are planning to come to Alanya this summer, it might be a good idea to have your air conditions maintained to prevent any problems may occur after they stayed long time still. Our partner company for air conditions and coolers offers such a service. In this offer the company checks your air condition, cleans the filters for 150 TL per air condition unit. If there is need to change part or to fill gas, this will be charged separately. If you want to use this service, just let us know and we will arrange this service for you.

### **Repair, Renovation, Painting and more...**

We fully continue to fulfill our clients requests regarding renovations, repairs or painting and many more other requests: If you also need such a service, you can always contact us, we can send you reference pictures and offers to fulfill your request for an affordable price.

We send you our warmest regards from Alanya.

Tuncay Kaya
